*"Were the solution for all of this digital pollution because ll we got is us & in God we trust!" 6*

This has been a terrible time period in history over the last several years. We have done sat back to watch a President on television make a mockery out of democracy. We have weathered the storm through this pandemic or shall we say Covid-19 world wide epidemic. It's very weird because it just seems like all the movies that we have watched or video games that we have been playing have come to life over the last two years.

A lot of women are lazy and no longer want to put in hard work face to face. People expect free money without actually going to bookings to actually model for other people besides us. Gigantic companies with unlimited resources have bought up all of the dating sites to create a economic monopoly board of control.

Many talented music artists have died from violence, drug over doses or Covid-19 over the last two years. Every other day have been nothing but bad news.

However the sun must shine through all

of this darkness. We hope to bring forth brand new amateur mature beautiful natural women for your viewing experience.

We have created new outfits for our brand new clothing line. We have re-branded and changed the direction we were headed in before this pandemic hit us hard.

Our new magazines in 2022 will be focused more on writing articles about home cook meals, homemade drink recipes, video game reviews, music reviews, movie reviews, dating & lifestyle.

We have weathered the storm through the good the bad & the ugly. Especially, when dealing with people in this modern day era that is constantly filled with new technology we just simply wanted to bring back the real side of life where women can be them selves without make up or filters. Were looking for brand new amateur mature women that live in New York City areas that are willing to work hard for our company brand that will

proudly represent us through the rain, sleet, hail & snow year round. Good help has been so hard to find over the last couple of years. We are looking forward to really finding women next time around that really have a love for Pinup Photography & want to capture the true essence of classic pinup modeling mixed with modern day technology in one way or another. We have a ton of ideas that we would like to incorporate in our new photo shoots for all of our future magazines. We have invested in clothing, new props, camera equipment, lighting & back drops to make all of our future magazines issues a force to read through out the year.

We hope you enjoy Grown Ass Pinups Magazine & continue to support us online through bookings or by buying us to read.

Vanny Goodfella
